Submission of Declaration under 37 C.F.R. § 1.42

Commissioner of Patents & Trademarks Washington, D. C. 20231

Sir:

Hiroyasu Takahashi, formerly of 1-18-29 Tachibandadai, Aoba-ku, Yokohama Kanagawa, Japan, was identified as one of the original, first and joint inventors of the invention described and claimed in Japanese patent application 2000-397046, filed Dec. 27, 2000. United States patent application (IBM Docket JP920000372US1), filed Dec. 14, 2001, claims the benefit of the filing date of the Japanese patent application under 35 U.S.C.§120.

I have been informed that Mr. Takahashi died before a declaration could be presented to him for signature.

37. C.F.R. §1.42 provides that, in the case of the death of an inventor, the legal representative of the deceased inventor may make the necessary oath or declaration and apply for and obtain a patent. I am aware that United States rules of practice generally require proof that a legal representative is authorized to act on behalf of a deceased inventor.

I have been advised that the laws and customs of Japan do not provide for the appointment of a

legal representative of a deceased nor do the courts of Japan issue any certificates authorizing a heir or heirs to act on behalf of a deceased. The existence of such authority is assumed without the need for proof.

The attached declaration for the United States patent application identified above has been signed on behalf of Hiroyasu Takahashi by Akiko Takahashi who is the widow of the deceased Mr. Takahashi. I have been informed that this person is Mr. Takahashi's proper and rightful heir under the laws of Japan.

It is requested that the declaration be accepted as being in compliance with the requirements of Section 1.42.

Respectfully submitted,

By <u>Serold Husards</u> Gerald R. Woods
